

Project Demo Planning

Date	6 July 2026
Team ID	XXXXXX
Project Name	OptiCrop – AI-Based Crop Recommendation System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the **OptiCrop – AI-Based Crop Recommendation System** is presented effectively by demonstrating all major functionalities in a clear and organized manner. The demonstration covers the project objectives, system architecture, Machine Learning workflow, live crop recommendation process, and deployment on Render.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the OptiCrop project, objectives, and the problem faced by farmers in selecting suitable crops..	2	Dasari Sandhali
2	Solution Overview	Explain the project architecture, technologies used, Machine Learning workflow, and system design.	3	J Daniya Saman
3	Live Loan Prediction Demo	Demonstrate the application by entering soil nutrient and environmental values and displaying the recommended crop.	5	Mohammed Fasi Faraz
4	Machine Learning & Backend	Explain dataset preprocessing, trained Machine Learning model, Flask backend, scaler, and prediction process.	3	Mighty Abhishek Darivemula
5	Deployment Demonstration	Demonstrate the live application hosted on Render and explain GitHub integration and deployment.	2	Dasari Sandhali
6	Conclusion	Summarize the project, discuss its benefits, and explain future enhancements.	2	J Daniya Saman

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statements	Explain the challenges farmers face in selecting the most suitable crop based on soil nutrients and environmental conditions.
2	Solution Overview	Describe the system architecture, Machine Learning workflow, technologies used, and Flask integration.
3	Live Feature Demonstration	Demonstrate the OptiCrop application by entering N, P, K, Temperature, Humidity, pH, and Rainfall values to generate a crop recommendation.
4	Q&A Session	Answer questions from the faculty, explain the implementation details, deployment process, and future enhancements.
